

spacefest

Spacefest VII June 9-12, 2016 Tucson, AZ

Spacefest is an annual reunion of NASA astronauts, famous space scientists, authors, astronomers, space artists, and fans. (For more info: <https://www.spacefest.info>)

I was honored to be invited by artist, astronaut & friend Alan Bean to participate in Spacefest VII & have my artwork on display alongside the work of other artists who love space. I'm looking forward to Spacefest VIII.

Astronaut Group Picture with Hope: Art Space Suit

With fellow astronauts Vance Brand & Alan Bean

I supported several different interactive panel sessions with my astronaut and space scientist colleagues. With Space Shuttle Program and Women in Science panel members.

There are attendees of all ages and lots of wonderful inspiration and STEAM (Science, Technology, Engineering, Art & Math) Education activities.

Met amazing artist Simon Kregar, who presented Ron Garan and me with the beautiful paintings he did of a moment of our time in space.
